### National Oceanic and Atmospheric Administration

#### Notice to Extend the Time Period for the Area to be Temporarily Avoided by the Public During Coral Rubble and Ship Debris Removal Activities in the Looe Key National Marine Sanctuary, Now Part of the Florida Keys National Marine Sanctuary

**AGENCY:** Sanctuaries and Reserves Division (SRD), Office of Ocean and Coastal Resource Management (OCRM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

**ACTION:** Notice of extension of time period.

**SUMMARY:** The National Oceanic and Atmospheric Administration (NOAA), the U.S. Army Corps of Engineers (COE), and authorized contractors will be conducting coral rubble and ship debris removal activities to prevent and minimize the destruction, or loss of, or

injury to Sanctuary resources. The coral rubble and ship debris were generated as a result of the August 10 to 12, 1994, R/V *Columbus Iselin* grounding incident within the Looe Key National Marine Sanctuary (Looe Key NMS), now part of the Florida Keys National Marine Sanctuary (Florida Keys NMS).

To ensure the protection of life and property during these complex activities the public is advised to avoid the area due to the presence of heavy equipment (i.e., barge and crane) and increased localized boat traffic. NOAA requested on August 25, 1995 (60 FR 44307) that Sanctuary users temporarily avoid an area approximately 900 square feet marked by visible construction buoys from on or about August 23 and August 31, 1995. The area is in the vicinity of 24°37'30" N, 81°24'23" W, a bank reef located 7 nautical miles (12.9 km) off the southwest tip of Big Pine Key, Florida.

Due to recent tropical storms and hurricanes in the Greater Caribbean and Florida peninsula, activities to remove

the coral rubble and ship debris have been delayed. This notice extends the request for the public to temporarily avoid the area until September 15, 1995.

#### FOR FURTHER INFORMATION CONTACT:

Any comments on the establishment of the area to be temporarily avoided may be sent at any time during or after the effective dates specified, to Dr. Charles M. Wahle, Chief, Technical Projects Branch, Sanctuaries and Reserves Division, National Oceanic and Atmospheric Administration, 1305 East West Highway, SSMC4, 12th Floor, Silver Spring, Maryland, 20910. Telephone number: 301-713-3145 ext. 156.

#### Locations and Boundaries of Temporary Avoidance Area

The temporary avoidance area is located approximately 7 nautical miles (12.9 kilometers) offshore the southwest tip of Big Pine Key, Florida (24°37' N, 81° W). The total area to be temporarily avoided is approximately 900 square feet, and is less than one percent of the total area of the Looe Key NMS. The boundary of this area will be marked by visible construction buoys.

The area to be temporarily avoided is bounded by the following coordinates:

Latitude	Longitude
A. 24°32'49.5" N	81°24'25.6" W
B. 24°32'49.5" N	81°24'22.4" W
C. 24°32'25.3" N	81°24'22.4" W
D. 24°32'25.3" N	81°24'25.6" W

#### Dates

The area to be temporarily avoided will be in effect until September 15, 1995, or until the construction marker buoys are removed at NOAA's direction if the work is completed prior to September 15, 1995. Public notice of the area to be temporarily avoided will be provided through the **Federal Register**, local news media, and posting of placards on bulletin boards in public areas in Big Pine Key and at Bahia Honda State Park.

Notice of the removal of the area to be temporarily avoided will be issued by NOAA once the rubble and ship debris removal activities are completed.

Dated: September 1, 1995.
